Jupiter Mines Ltd (JMS.ASX)

4Q a strong finish; Strategic intent to be leader

Event:

4QFY23 review; Strategy release.

Investment Highlights:

- Tshipi 4Q NPAT (100%) of \$49M was above our estimate of \$46M, and a marked improvement over the 3Q's \$40M.
- Higher FOB price key driver of improved profit. We had anticipated easing of freight rates since the end of CY22 would lift FOB pricing. Tshipi achieved US\$3.41/dmtu for its high-grade product vs the US\$2.76/dmtu in the 3Q, while the RSA Port Elizabeth Mn 37% FOB benchmark averaged US\$3.31/dmtu during the 14 vs US\$3.11/dmtu in the 3Q.
- Lift in shipments also contributes as guidance achieved. Another factor for the
 better earnings was shipments of 1.0Mt in the 4Q vs our estimate of 0.9mT and
 the 0.8Mt of the 3Q. Full-year sales were 3.5Mt, above prior guidance of 3.4Mt
 and represented its second highest annual sales. However high-grade sales
 were the largest ever, being 3.4Mt, with only 60kt of low grade ore shipped in
 the year, all in the final quarter.
- Royalty lifts costs. 4Q C1 costs FOB for high-grade was US\$2.20/dmtu, at the top-end of historical guidance and above the US\$2.11/dmtu of the 3Q. However most of the rise was from RSA's variable royalty rate percentage, which increases as prices rise, all else being equal.
- Five-year strategy: aiming to be largest global Mn producer. JMS stated it its intent to become the world's leading Mn producer by 2028. Key initiatives outlined included M&A/consolidation especially in the Kalahari including Tshipi; Organic growth (eg Tshipi expansion); Better performance (eg rehandle) from Tshipi; and Logistics improvements. Additionally the company will seek to participate in downstream Mn for batteries to leverage growth from the decarbonisation theme and improve ESG credentials.
- Dividend policy to be maintained despite growth ambitions. JMS stated it will
 at least maintain its existing dividend policy of at least a 70% payout ratio.
- Change of financial year date. JMS announced it is moving its FY year/end to June from February, brining it in-line with the majority of ASX-listed companies and no doubt making it user-friendly for Australian investors.

Earnings and Valuation:

- Our forecast FY23e JMS adj. NPAT increases to \$89M from \$87M on Tshipi's better 4Q, while FY24e and FY25e only slightly change: \$81M and \$76M from \$82M and \$77M.
- Our JMS valuation is unchanged at \$0.60 (1.0x NPV₁₀ nominal).

Recommendation:

 We maintain our Buy and 12-month price target of \$0.60 based on 1.0x Price/NPV. Catalysts for the share price include: Lower freight rates; Strategy detail; Gaining control of Tshipi; Mn downstream opportunities; Tshipi expansion; and M&A activity.

Disclosures

The analyst owns 476,276 JMS shares.
Foster Stockbroking and associated entities (excluding Cranport Pty Ltd) own 9,852,561 JMS shares.
Cranport Pty Ltd owns 11,711,960 JMS shares.
